Global Youth Coalition

HI! GYC TEAM

DOC BORN AT 421.55 ppm

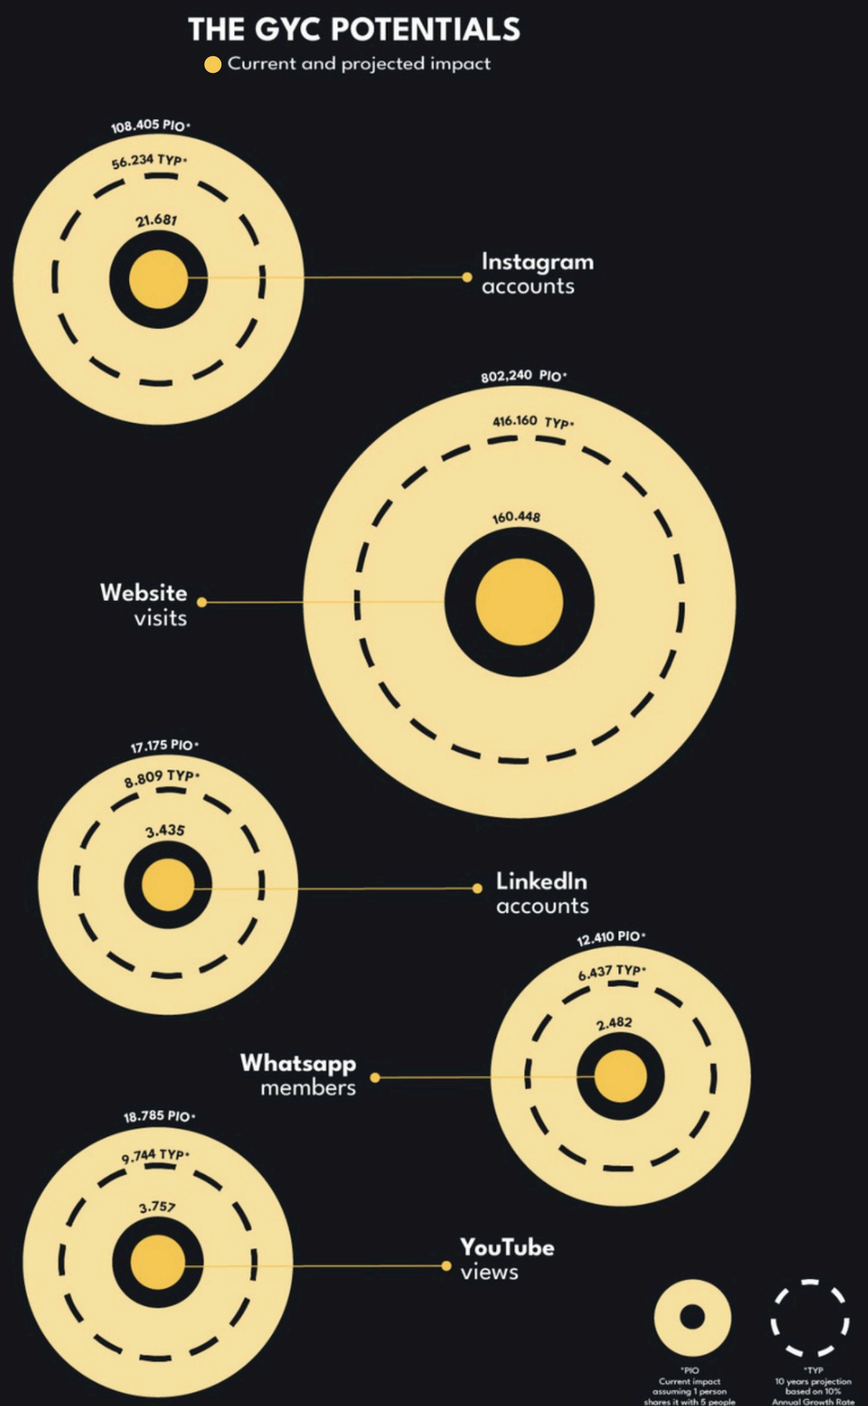

The ongoing mission:
Empowering youth-led NGOs by distributing filmmaking equipment and providing open-source training on content creation and storytelling. Through an innovative gamified concept, the Ecoverse, we deliver knowledge on filmmaking and social media in an engaging, interactive format. This approach enhances the visibility and impact of ongoing nature-based solutions, fostering a global network of environmentally conscious storytellers dedicated to peace and climate action.

If you're reading this, you are one of our cherished stakeholders and community members. Your special role means that the document and numbers you see here represent our collective, collaborative efforts. Every contribution, even simply sharing a post, helps make this vision a reality. Thank you for being a vital part of our journey

What does “ R4P” look like:

- +5000 young people reached
- 800 digital kits being delivered
- 100 countries network
- 15 cutting edge tools delivered
- 5 cross-continental active collaboration
- 4 UN languages covered real time
- 1 gamifiying concept - ECOVERSE
- 1 R4P session delivered from SB60 Bonn
- + session delivered officialy inside UNFCCC SB60 together with youth negotiators and youth streaming from Gaza War Zone

We are proud to share that **30% of our mentors and speakers are either indigenous or belong to minority representative groups**, ensuring diverse perspectives and inclusive representation in our initiatives.

Global Youth Coalition

Dear GYC community,

We are excited to share the progress and impact of our initiatives at the Global Youth Coalition (GYC). As part of our ongoing efforts to empower youth in environmental advocacy, we are proud to announce the delivery of 800 digital kits to our program participants. Additionally, we have distributed 15 cutting-edge tools to support their endeavors.

OUTCOME (What does “success”look like)	INDICATORS (KPIs - How to measure outcomes)
R4P empowers youth with the essential skills, knowledge, and confidence required to advocate for both global and local restoration and conservation initiatives.	At least 5000 young leaders are reached through online media by the R4P and report gaining essential knowledge in restoration and conservation.
R4P's impact goes beyond COP28, enabling youth leaders to continue showcasing and amplifying on going nature-based solutions, restoration, and conservationprojects through the mediums of filmmaking and social media.	At least 50 youth-led NGOs globally are equipped with cutting-edge equipment to capture and measure the impact of their initiatives, promoting data-driven action.

Each of these metrics reflects our commitment to broadening our reach and deepening our impact, leveraging digital platforms and innovative tools to amplify the voices and actions of young climate leaders.

We look forward to continuing our collaboration and achieving even greater milestones together.

Warm regards,

Reeforesting 4 Peace Team
